

A BAPTIST.—Mr. Morgan of Morgan & Dougherty, jewelers, etc., showed us this morning a nice little bar of bullion from the Senator and Alta Mine at McCrackin Hill. The inscription elegantly engraved by Dougherty was S. A. C. M. Company to Col. H. C. Hodge, \$17,200. 985 fine.

NICE DISPLAY OF SILVER BULLION.—We went into Charles Platz's assay office the other day, and found him finishing up six bars of silver bullion, the brightest and nicest I have yet seen. We immediately went to work to copy the figures stamped upon each, and found the following aggregates: 1,901.75 ounces; averaging, 945 fine. Value, \$2,325.95. They were further marked, "Agua Fria Smelting works," "Peck Silver Mining Company," "H. Richards, Prescott, A. T." They were shipped same day by A. & N. M. Express to San Francisco for account of Hugo Richards, the purchaser. Two of the bars were 956 fine and two went as low as 937.

Among the announcements of candidates for office in Yavapai county, we notice that Mr. E. S. Penwell, who is a candidate for County Recorder. Probably no man in Yavapai possesses the requisite qualifications for the office in a more eminent degree than E. S. Penwell. Mr. Penwell is an Arizonan of several years standing, is now Foreman of the Arizona Miner news and job office, and was chief clerk of the last Territorial Assembly, in which trying position he gave universal satisfaction. And no one doubts but that the duties of the office of county recorder will be faithfully and well performed if the voters of Yavapai see fit to honor him with their confidence. As yet we believe Mr. Penwell has no opposition, but whoever his opponent may be we cannot but wish success to Pen. —[Wallapai Enterprise.]

The latest indications from Little Colorado are that two marriages are liable to take place soon at or near Springerville.

A few days ago a party got on the rampage and threatened to start a private graveyard of his own at that new and thriving town, and in consequence was brought before Justice Franklin, and fined \$100 and costs, which he was glad to pay.

Miss Cuccia Romero, went in bathing at St. Johns not long since and was drowned. The new town of Springerville is improving. J. H. O'Neil is putting up three houses, C. A. Franklin, one, etc. H. Springer, W. R. Milligan, O. W. McCullough, J. B. Holding, J. H. O'Neil, Alex Jordan and C. A. Franklin, have taken up the townsite of Springerville, and sent the notice, plot, etc., to H. H. Carter, Probate Judge, in order to have the title secured according to law.

CABINET OF RARE MINERALS.—Last week we visited the assay office of Jay G. Kelley and examined his cabinet of minerals, fossils, and marine specimens. The cabinet is open to the inspection of the public and we would advise miners who visit the town to call and get posted on the different varieties. The following is a list of the specimens exhibited:

Silver ores, ruby silver, stephanite silver glance, wire silver, leaf silver, silver sulphurets, polybasite chloride of silver, horn silver, silver matte, brittle silver ore, bromide of silver, enargite—a beautiful and rare mineral from Russia—red antimonial silver ore, gold with iron pyrites, gold with copper pyrites, native leaf gold, telluride of gold—this latter is very valuable, the tellurium forming one of the parts being more valuable than gold—cinnabar from new Almaden, Cal., float nugget of cinnabar, from Beaver creek, Oregon, and selenide of mercury, a very rare mineral, pyrites of copper, peacock copper, carbonate of copper, malachite and azurite, auriferous copper, black oxide of copper, native copper, vitreous copper ore, gray copper ore or tetrahedrite, red oxide of copper, tenorite or black copper, chrysocolla or silicate of copper, velvet copper ore, tin sulphurets, oxyd of tin, stream tin, wood tin, molybdenite or sulphide of molybdenum, from Arendal, Norway, native bismuth, sulphurets of bismuth, native antimony, sulphurets of antimony, red antimony, native arsenic from Siberia, white arsenic, Russia sulphurets of arsenic both red and yellow from Washington Territory, realgar and orpiment, bisulphurets of iron, micaspice iron, red hematite, brown hematite, bog iron, chromite iron, columbite iron, chrysolite, chloropal, carbonate, or spathic iron, arsenate of iron, diallogite or carbonate of manganese virgin nickel, arsenical nickel, zinc blende, red oxyd of zinc, calamine or silicate of zinc, galena, molybdenite, cerussite or carbonate of lead, chromate of lead, native platinum, stannite, amber calc spar, wavelite dendritic cinnabar, anthracite coal, bituminous coal, cannel coal, lignite, jet from Syria, sandstone of bituminous coal formation, granular garnet, mountain leather, molybdenite of lead mica, section of mica crystal, several varieties of coral, gypsum, fluor spar, aragonite, meteorites, phillipsite, double refracting spar, sulphate of soda, obsidian, amethyst, topaz, garnets, opal, emerald, agates, moss agates, amethyst quartz, tourmaline, rock soap, sardonyx, zoisites, native sulphur, precious superphosphate, Mt. Hood lava, variegated jasper, tincal, carbonate of magnesia, sulphur of baryta, graphite, compact lime stone, calcite nail head spar, cats eye agate, forficulation agate, marmolite, carbonate of strontium, serpentine, silicified wood, petrified wood, feldspar, lava from Mt. Kilnean, Sandwich Island, lithomarge, bronzite lime, epidote actinolite magnesite, lillite, hypersthene granite, gneiss, garnets in quartzite, tripoli or infusorial earth, carbonate of lime, dolomite, flint, cryolite, geocrinite pipe iron ore, chalcedony rose quartz, satin spar and many rare fossils among which we noticed, petrified clams and quahaugs, a petrified fern and maple leaf impressions, trilobites, atropa reticularis, cyathophyllum, ammonites and many others with almost unpronounceable names. In the collection are also several beautiful corals and many shells, also the wood, bark and cones of some of the mammoth trees of Calaveras county, Cal., also several large barnacles taken from a whale's back. Sea eggs and sea urchins, a lime deposit showing the work of the *teredo navalis*, etc., etc., but want of space forbids further remarks at present.

BY TELEGRAPH.

Special to the Miner by W. S. Military and W. U. Lines.

St. Louis, June 27th.
Convention called to order by Augustus Schell. Henry Waterson, of Kentucky, chosen temporary chairman. John A. McClelland, of Illinois, permanent chairman. Committee on Platform not yet reported. Balloting will probably begin tomorrow.

San Diego, June 28.—The Union publishes an extra this evening with the following:

St. Louis, June 28.—Samuel J. Tilden of New York was nominated for President on third ballot this afternoon.

On first ballot Tilden had 419½; Hendricks, 122½; Hancock, 75; Bayard, 33; Parker, 18; Allen, 56; Broadhead, 12.

Second Ballot.—Tilden, 467; Hendricks, 108; Thurman, 2; Hancock, 71; Bayard, 18; Parker, 18; Allen, 54.

Washington, June 26.—Ex-speaker Blaine will soon leave for his home in Maine for a season of repose.

Congressman Saylor, of Ohio, has been elected speaker protem.

Inflationists to-day attempted to rush through a repeal of the resumption act, but failed.

Nothing yet done with the appropriation bills.

The President is firm in his purpose to stop everything not provided for on the 1st of July if the bills are not passed.

San Francisco, June 26.—Last night's mail failed to connect at Omaha.

Silver to-day 6½ to 7 per cent discount.

Several deaths from small-pox. One hundred and eighteen cases have been reported to date.

St. Louis, June 26.—Hendricks' men are feeling more confident to-day. After first ballot Hendricks is expected to make decided gains.

Anti-Tilden men are seeking for some one strong enough to carry Indiana, Ohio and New York and are working with great energy.

Tilden's managers express great confidence in his ultimate success in spite of the efforts of Tammany. Several of the State Delegates have organized.

St. Louis, June 22.—The Democratic National Convention assembled at 12:30 to-day.

Henry Waterson, Editor Louisville Courier Journal, made a speech on taking his seat as temporary Chairman. Rules of last Democratic Convention adopted, including the 5 rule.

Miss Phoebe Cozens, from the Woman's rights National Convention, made a speech. The usual committees were appointed. Hager of California is on committee on resolutions.

Evening session.—Proceedings show remarkable lack of enthusiasm. The contrast with the Cincinnati Convention in this respect is very striking.

It is evident the members have little hope of success or they would have received with more marked demonstrations the cast iron predictions of victory, which scarcely elicited a feeble cheer.

The opening prayer was laughably inconsistent with Waterson's speech. The Chaplain offered special thanks for national prosperity announced busy factories and furnaces and abundant demand for labor at remunerative rates, all of which Waterson had denied in his speech because of the direful effects of Republican ascendancy.

Tilden men are hurrying the proceedings so as to reach balloting before the situation changes. His opponents still hope to combine for his defeat.

San Francisco, June 27.—The Chronicle is admitted to the Associated Press, and takes its dispatches from the Western Union.

St. Louis, June 27.—No contested seats in convention; all the states represented; delegates from the Territories admitted.

Colonel Jack Hayes of California is one of the Vice Presidents of the Convention.

Judge Hager offered a resolution against the importation of Chinese women for immoral purposes and men under servile contracts.

The South prefers Bayard and it looks as if Tilden might fall to 400 on first ballot.

The Maryland men learning that Tilden's friends were circulating a report that Bayard would get out of Tilden's way, whenever that would nominate him, have formerly declared that Bayard will remain in the race until beaten.

The difficulty with the Committee on platform is with regard to the repeal of the resumption act, and the adoption of a vague plank on the currency question.

San Diego, June 19.—Lieutenant Philip Reade Superintendent U. S. Military Telegraph Line, left by this morning's stage for Tucson with a view to constructing a line from Grant to Apache and probably to Bowie.

Washington, June 17.—Secretary Bristow has resigned the Treasury Department, he will retire June 30th. The resignation is due to purely personal reasons.

Hon. R. C. McCormick, of Arizona, has been added to the Republican national committee.

New York, June 20.—The Tribune says Morrell's appointment as Secretary of Treasury is everywhere spoken of in praise.

An early agreement on appropriation bills is now probable.

Colonel Tom Scott denies having anything to do with Caldwell's dispatch to Knott.

Bangor, Maine, June 21.—The Maine Republican Convention unanimously recommended Blaine to succeed Morrell in the U. S. Senate. A telegram from Blaine urges that every effort must be made to elect Con nor by a magnificent majority in September to pave the way for the triumphant election of Hayes and Wheeler in November.

New York, June 22.—A special from Washington says Colonel John S. Mosby authorizes the statement that he will support the Hayes and Wheeler ticket, and that all conservative men in Virginia must see that no good can come out of the Democratic party and if they desire peace and reconciliation they will do the same.

San Francisco, June 22.—Hayes and Wheeler ratification meeting last night at Union Hall, a grand success. Addresses by Ex-Governor Woods, John M. Coghlan, T. G. Phelps, Thomas Fitch and others.

Gold in New York 112½. Greenbacks in San Francisco 89½ @ 90.

Yuma, June 22.—Two unknown men and a woman, peddlers of cheap jewelry, notions, etc., attempting to cross the California desert, from Dos Palms to Fort Yuma, were lately found by Griffith in a perishing condition. He generously gave them 10 gallons of water and went without himself. Mr. Hood, of the S. P. R. survey, this A. M. buried one, the others also died of thirst, the result of their own folly. Their two horses also died.

St. Louis, June 28.—After much wrangling the Convention to-day adopted a platform. They declare for supremacy of Civil over Military rule, and separation of Church and State.

The financial plank is a curiosity. It charges the Republican party with preventing a return to specie payment, and declares in favor of a repeal of the resumption act of 1875. It denounces the present tariff and charges the Republican party with having thrown away the public lands, also that they have formed treaties that do not protect our citizens abroad. They pronounce against Chinese immigration and favor Civil service reform, and arraign Blaine, Delano, Williams, Schenck, Babcock and Belknap for corruption in office and say it is the legitimate outgrowth of the policy of the Republican party.

San Diego, June 28.—The St. Louis Convention to-day nominated Hendricks of Indiana for Vice President.

EXPERTS.—William D. English and R. F. Grisby who came from San Francisco two weeks ago to examine the Tiger mine in Bradshaw mountains, returned to California by A. & N. M. stage on Sunday last. Just what report they will make is not known here, as they were in the employ of California capitalists and will, of course, withhold their views from others. They made a thorough examination of the ore in the Tiger dump cutting it in two and sampling it in every part by metal process. We understand they estimated the dump pile, by measurement, at five hundred tons whereas they had expected to find a thousand, and in this, and only this, did they express the least dissatisfaction. The quality of the ore, so far as could be gathered from conversation, was fully up to their expectations.

Major John G. Chandler, Chief Q. M. of this Department, is relieved from duty on the frontier and ordered to Washington.

Major Charles A. Reynolds takes his place.

Mr. and Mrs. Gardiner, who keep the principal hotel at Phoenix, are, we understand both very ill, and Mr. Gardiner is not expected to live.

MARRIED.

At Prescott, on Thursday, June 29, 1876, at the residence of Wm M. Buffum, Esq., by Rev. A. Gilmore, Chaplain, U.S.A., Mr. Wm C. Bashford and Miss M. Louise Evans, both of Prescott.

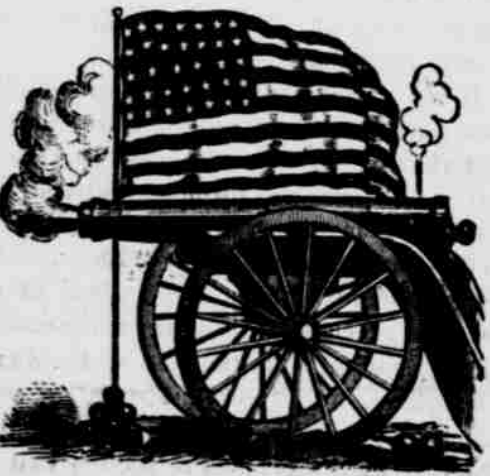

In Los Angeles, Cal., June 14, by Rev. Mr. Puckard, H. V. Cram, of Prescott, to Mrs. E. A. Cooley, of Los Angeles.

NEW ADVERTISEMENTS.

1776. 1876.
